## Selected Case Studies

**Case Study 3:** Online Learning Platform Interface (LearnSphere)
**Case Study 11:** Hospital and Healthcare Services Website (CarePlus Hospital)
**Case Study 24:** Community Service Project Website (Helping Hands)

## Technologies Used

**HTML5 & CSS3:** Semantic HTML elements, Flexbox layout engine, CSS Grid systems, custom tables with captions and scoped headers, accessible multi-input forms with fieldsets, and interactive hover effects.

### Executive Summary & Implementation Objectives

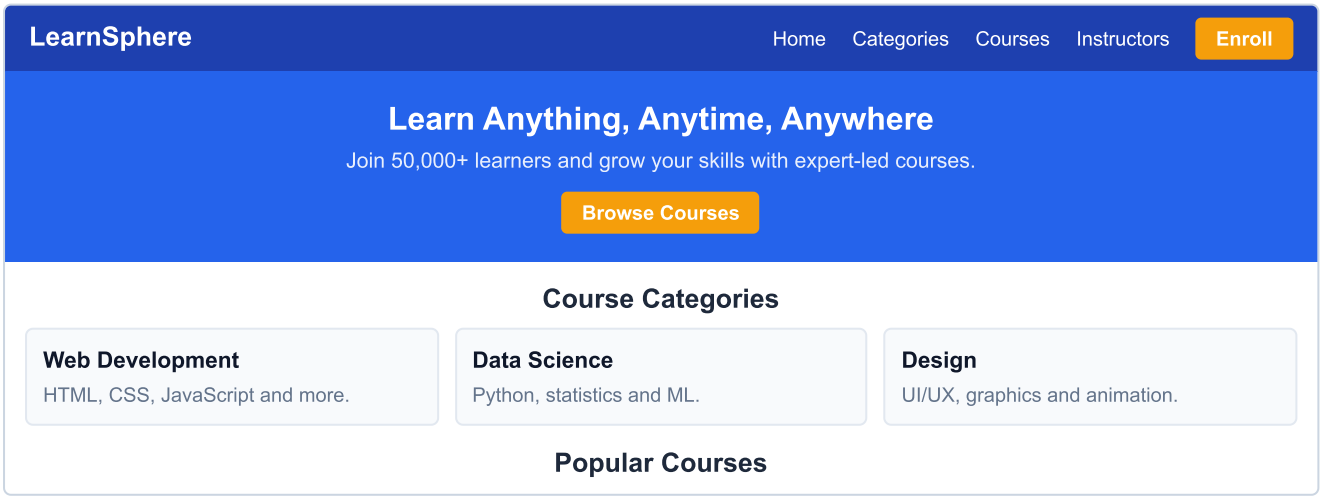

This document presents the complete codebase and live UI component outputs for three responsive Web Development case studies. Each project is crafted cleanly with pure HTML5 structural semantics and targeted CSS3 layouts without external libraries.

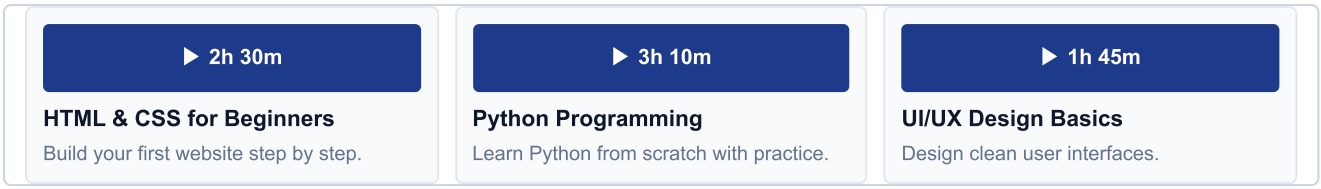

## Case Study 3 – Online Learning Platform Interface (LearnSphere)

An e-learning website featuring course categories, video lesson thumbnails, course descriptions, learning objectives, instructor profiles, enrollment forms, and progress indicators.

- Navigation bar and hero banner with learner statistics
- Six course category cards with CSS hover effect
- Course cards with video thumbnail, duration, price, and action buttons
- Progress bars utilizing native HTML `<progress>` elements

### Rendered UI Output Screen

## Case Study 3 – HTML & CSS Source Code

**learn_sphere.html & style.css**

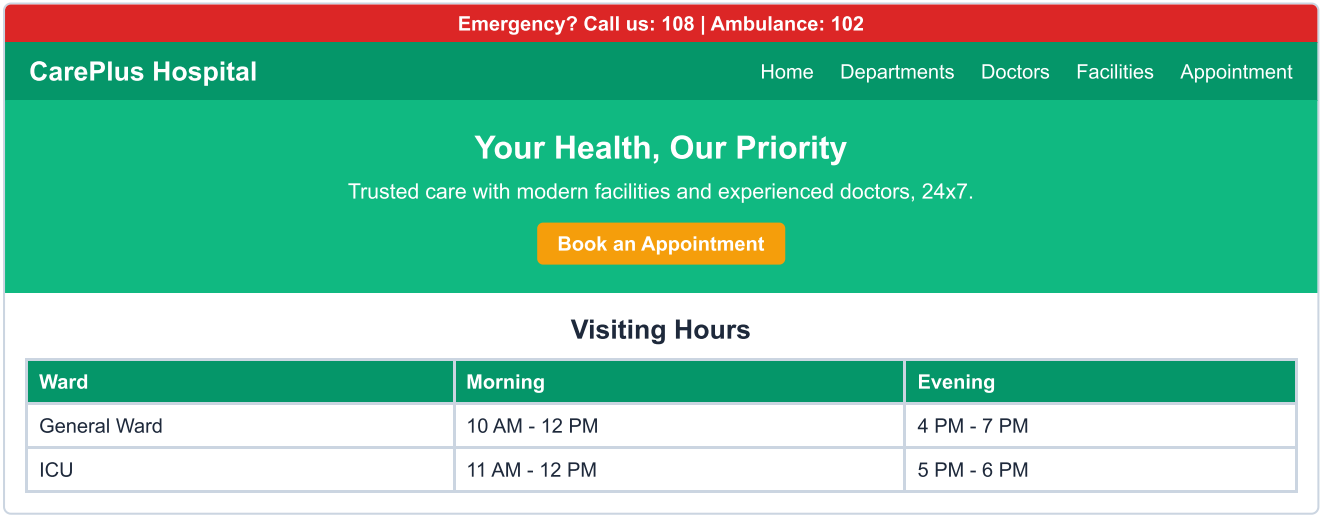

```
<!DOCTYPE html> <html lang="en"> <head> <meta charset="UTF-8"> <title>LearnSphere - Online Learning Platform</title> <style> .navbar { background-color: #204080; color: white; display: flex; justify-content: space-between; padding: 12px 30px; align-items: center; } .hero { background-color: #2b5797; color: white; text-align: center; padding: 40px 20px; } .grid-3 { display: grid; grid-template-columns: repeat(auto-fit, minmax(250px, 1fr)); gap: 15px; } .card { background: white; padding: 20px; border-radius: 6px; box-shadow: 0 2px 6px rgba(0,0,0,0.1); } .card:hover { transform: translateY(-3px); } .btn-primary { background-color: #f39c12; color: white; padding: 8px 16px; text-decoration: none; border-radius: 4px; font-weight: bold; } </style> </head> <body> <header class="navbar"> <div class="logo">LearnSphere</div> <nav> <a href="#home">Home</a> <a href="#categories">Categories</a> <a href="#courses">Courses</a> <a href="#instructors">Instructors</a> </nav> </header> <section class="hero"> <h1>Learn Anything, Anytime, Anywhere</h1> <p>Join 50,000+ learners and grow your skills with expert-led courses.</p> <a href="#courses" class="btn-primary">Browse Courses</a> </section> <section class="container"> <h2>Course Categories</h2> <div class="grid-3"> <div class="card"><h3>Web Development</h3><p>HTML, CSS, JS and more.</p></div> <div class="card"><h3>Data Science</h3><p>Python and Machine Learning.</p></div> <div class="card"><h3>Design</h3><p>UI/UX, graphics and animation.</p></div> </div> </section> <section class="container"> <h2>Your Learning Progress</h2> <label>HTML & CSS</label> <progress value="80" max="100"></progress> <label>Python Programming</label> <progress value="45" max="100"></progress> </section> <footer><p>&copy; 2026 LearnSphere | B. Gnana Priya | Roll No: 26001061</p></footer> </body> </html>
```

## Case Study 11 – Hospital and Healthcare Services Website (CarePlus Hospital)

A hospital website presenting departments, doctors, specialties, facilities, visiting hours, emergency contacts, and an appointment request form.

- Red emergency contact bar with clickable phone links
- Department cards (Cardiology, Neurology, Orthopaedics, etc.)
- Visiting-hours table with caption and scoped headers
- Accessible appointment form with input validation attributes

## Case Study 11 – HTML & CSS Source Code

careplus_hospital.html & style.css

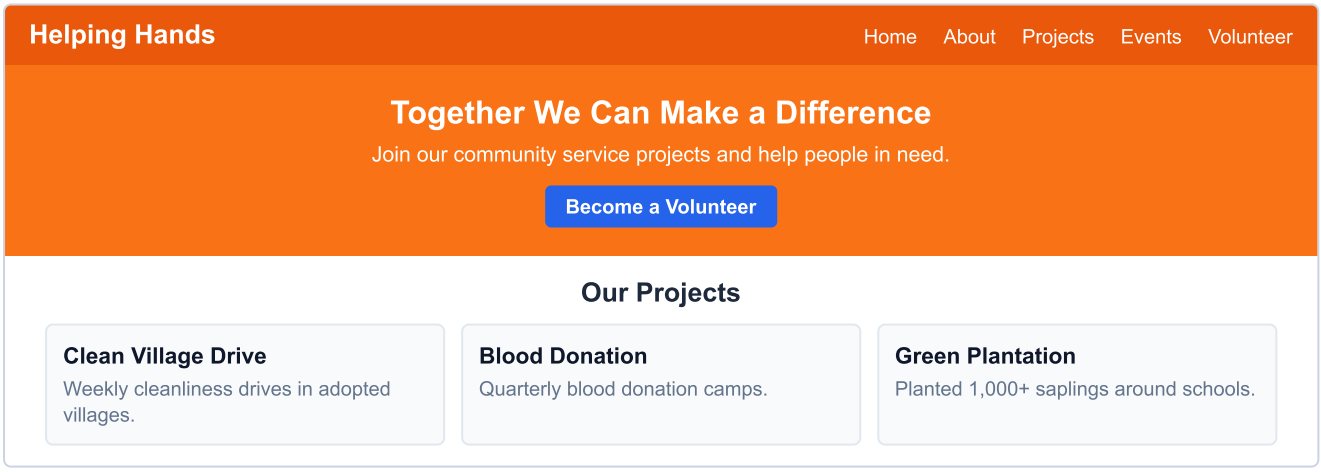

```
<!DOCTYPE html> <html lang="en"> <head> <meta charset="UTF-8"> <title>CarePlus Hospital - Healthcare Services</title> <style> .emergency-bar { background-color: #d9534f; color: white; text-align: center; padding: 6px; font-weight: bold; } .hospital-nav { background-color: #1b7a57; color: white; display: flex; justify-content: space-between; padding: 12px 30px; } .hospital-hero { background-color: #238b62; color: white; text-align: center; padding: 40px 20px; } .styled-table { width: 100%; border-collapse: collapse; margin-top: 10px; } .styled-table th { background-color: #1b7a57; color: white; padding: 8px; } .styled-table td { border-bottom: 1px solid #ddd; padding: 8px; } </style> </head> <body> <div class="emergency-bar">Emergency? Call us: <a href="tel:108" style="color:white">108</a> | Ambulance: 102</div> <header class="hospital-nav"> <div class="logo">CarePlus Hospital</div> <nav><a href="#home">Home</a> <a href="#dept">Departments</a> <a href="#apt">Appointment</a></nav> </header> <section class="hospital-hero"> <h1>Your Health, Our Priority</h1> <p>Trusted care with modern facilities and experienced doctors, 24x7</p> </section> <section class="container"> <h2>Visiting Hours</h2> <table class="styled-table"> <caption>Patient visiting hours</caption> <tr><th>Ward</th> <th>Morning</th><th>Evening</th></tr> <tr><td>General Ward</td><td>10 AM-12 PM</td><td>4 PM-7 PM</td></tr> <tr> <td>ICU</td><td>11 AM-12 PM</td><td>5 PM-6 PM</td></tr> </table> </section> <footer><p>&copy; 2026 CarePlus | B. Gnana Priya | Roll No: 26001061</p></footer> </body> </html>
```

## Case Study 24 – Community Service Project Website (Helping Hands)

A community service website describing student-run projects, an upcoming event schedule, and a volunteer registration form.

- Navigation bar and hero banner with call-to-action button
- About section describing the club and community impact
- Six project cards (cleanliness drives, blood donation, etc.)
- Upcoming events schedule table and volunteer registration form

### Rendered UI Output Screen

## Case Study 24 – HTML & CSS Source Code

**helping_hands.html & style.css**

```
<!DOCTYPE html> <html lang="en"> <head> <meta charset="UTF-8"> <title>Helping Hands - Community Service Club</title> <style> .community-nav { background-color: #c06020; color: white; display: flex; justify-content: space-between; padding: 12px 30px; } .community-hero { background-color: #d47535; color: white; text-align: center; padding: 40px 20px; } .form-container { background: white; padding: 20px; border-radius: 6px; border: 1px solid #ddd; } .btn-submit { background-color: #f39c12; color: white; border: none; padding: 10px; width: 100%; border-radius: 4px; font-weight: bold; } </style> </head> <body> <header class="community-nav"> <div class="logo">Helping Hands</div> <nav><a href="#home">Home</a> <a href="#about">About</a> <a href="#projects">Projects</a></nav> </header> <section class="community-hero"> <h1>Together We Can Make a Difference</h1> <p>Join our community service projects and help people in need</p> </section> <section class="container form-container"> <h2>Join as a Volunteer</h2> <form> <label>Full Name *</label><input type="text" required> <label>Email *</label><input type="email" required> <button type="submit" class="btn-submit">Register</button> </form> </section> <footer><p>&copy; 2026 Helping Hands | B. Gnana Priya | Roll No: 26001061</p></footer> </body> </html>
```

## Conclusion

All three case study websites were designed and implemented using pure HTML5 and CSS3. The code structure remains clean, semantic, and modular across all files. Each implementation contains key web development components such as navigation bars, hero headers, CSS Grid layout systems, accessible HTML data tables with scoped headers, interactive hover effects, and validated input forms.
